DIRECTORS' REVIEW REPORT

Dear Shareholders,

The Directors of Arif Habib Corporation Limited (AHCL) are pleased to present the Directors' report of the Company together with condensed interim unconsolidated and consolidated financial statements for the quarter ended 30th September 2018.

The Economy

The period under review has been difficult in terms of macro-economic indicators. Higher inflation, rising interest rates, falling rupee value and reducing foreign currency reserves have dampened the investors' sentiment. During the period, KSE-100 index declined by 2.18%. Pakistan seeking IMF programme looked imminent. This resulted in speculations about value of rupee, interest rates and utility prices putting investors in 'wait and see' mode and affecting GDP growth rate adversely.

Financial Results

During the quarter, on an unconsolidated basis, AHCL recorded operating revenue of PKR 1,565.71 million, which includes dividend income, realised capital gain on sale of securities and unrealised gain on re-measurement of investments. After accounting for operating, administrative, financial and other expenses of PKR 72.62 million, the Company earned a profit before tax of PKR 1,496.76 million. The Company has reported an after-tax profit of PKR 1,503.78 million for the quarter under review as compared with PKR 714.03 million (Restated) for the corresponding quarter ended 30th September 2017. Earnings per share during the quarter ended 30th September 2018 was PKR 3.31 as compared to PKR 1.57 (Restated) in the corresponding quarter during 2017-18.

During the quarter under review, on a consolidated basis, your Company posted a profit-after-tax (attributable to AHCL's ownership) of PKR 361.51 million as opposed to PKR 654.43 million (Restated) during corresponding period in 2017-18. This translates to an earning of PKR 0.80 per share as compared with PKR 1.44 (Restated) in the corresponding period.

Performance of Subsidiaries and Associates

Sachal Energy, a wind energy project, has posted an after-tax profit of PKR 460.42 million during the quarter ended 30th September 2018 as compared to PKR 449.22 million during the corresponding quarter last year. Our subsidiary and associated companies in the Financial Services sector have performed satisfactorily despite bearish market during the period under review. Our brokerage firm has managed to post an impressive earning per share of PKR 2.71 as compared to PKR 0.61 in the corresponding quarter. MCB-Arif Habib Savings and Investments Limited has recorded an earnings per share of PKR 0.45 as compared to PKR 0.57 in last corresponding period. The fertilizer plant on Mari Gas

(Fatima Fertilizer) has done well recording a profit of PKR 9.44 billion for nine months as compared to PKR 6.67 billion in last corresponding period. Whereas, fertilizer businesses reliant on LNG (SNGPL), Pakarab Fertilizers and Fatimafert have suffered losses during the quarter under review. Financial performance of Aisha Steel, Javedan Corporation and Power Cement remained under pressure.

Future outlook

Incoming government after general elections, has embarked upon taking corrective measures to put the economy of Pakistan on recovery path. Closed fertilizer units have been resumed supply of gas to start their productions. Natural gas prices have been revised and a Finance Amendment Act has been legislated, owing to the budget deficit that would have accumulated during the remaining part of the current financial year. Government has decided to initiate a dialogue with the IMF for a programme to get balance of payment support. Additionally, government is also engaged with friendly countries for similar support. It is expected that it will take about three months' time to yield positive results.

Our investment in fertilizer, which constitute major part of our total investments, is expected to do better in view of resumption of supply of gas to our closed units and favourable market conditions for fertilizers. Wind power will continue to do well, whereas financial services, real estate, steel and cement businesses are expected to have a mixed performance. On an overall basis, the Company's future outlook looks better.

For and on behalf of the Board

There were no changes in composition of the Group during the three months period ended 30 September 2018.

NOTES TO THE CONDENSED INTERIM UNCONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

For the three months period ended 30th September 2018

2. BASIS OF PREPARATION

2.1 Statement of compliance

This condensed interim financial statements has been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprises of;

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of directives issued under the Companies Act, 2017 have been followed.

This condensed interim unconsolidated financial information is unaudited and does not include all the information required for full annual financial statements and should be read in conjunction with the annual audited unconsolidated financial statements of the Company as at and for the year ended 30 June 2018.

The comparative statement of financial position presented in this condensed interim unconsolidated financial information has been extracted from the audited annual unconsolidated financial statements of the Company for the year ended 30 June 2018, whereas the comparative condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of cash flow and condensed interim statement of changes in equity are extracted from the unaudited condensed interim unconsolidated financial information for the period ended 30 September 2017.

This condensed interim unconsolidated financial information is presented in Pakistan Rupees which is also the Company's functional currency and all financial information presented has been rounded off to the nearest rupee.

This condensed interim unconsolidated financial information has been prepared on the basis of a single reportable segment.

2.2 Basis of measurement

This condensed interim unconsolidated financial information has been prepared under the historical cost convention, except for derivatives, investments classified as 'fair value through profit or loss' and 'fair value through other comprehensive income' which are stated at fair value.

NOTES TO THE CONDENSED INTERIM UNCONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

For the three months period ended 30th September 2018

3. ACCOUNTING POLICIES

- 3.1** The accounting policies and the methods of computation adopted in the preparation of this condensed interim unconsolidated financial information are the same as those applied in the preparation of annual audited unconsolidated financial statements of the Company as at and for the year ended 30 June 2018, except for the adoption of IFRS 9 'Financial Instruments'.

IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. In accordance with transitional provision of IFRS 9, the Company has retrospectively reclassified a Financial Asset in 'Fair Value through Other Comprehensive Income' to 'Fair Value through Profit or Loss'. The change of policy has been accounted in accordance with IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors', resulting in restatement of prior periods. The unconsolidated statement of financial position presents the prior year numbers as stated, due to the said changes, and opening unconsolidated statement of financial position as at 1 July 2017.

21. FINANCIAL INSTRUMENTS

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. This condensed interim unconsolidated financial information does not include all financial risk management information and disclosures required in the annual audited unconsolidated financial statements; they should be read in conjunction with the Company's annual audited unconsolidated financial statements as at 30 June 2018 as financial risk management objectives and policies are consistent with the prior year.

NOTES TO THE CONDENSED INTERIM UNCONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

For the three months period ended 30th September 2018

22. FAIR VALUE MEASUREMENTS

A number of the Company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and financial liabilities.

Management engages independent external experts / valuers to carry out valuation of its non-financial assets elected to be measured at fair value and financial assets where prices are not quoted or readily available in the market. Involvement of external valuers is decided by management. Selection criteria include market knowledge, reputation, relevant experience, independence and whether professional standards are maintained.

When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair values of financial assets that are traded in active markets are based on quoted market prices. For all other financial instruments the Company determine fair values using valuation techniques unless the fair value cannot be reliably measured.

Valuation techniques used by the Company include discounted cash flow model for valuation of unquoted equity securities. Assumptions and inputs used in valuation techniques include risk-free rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the balance sheet date that would have been determined by market participants acting at arm's length.

Valuation models for valuing securities for which there is no active market requires significant unobservable inputs and a higher degree of management judgement and estimation in the determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued and selection of appropriate discount rates, etc.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

NOTES TO THE CONDENSED INTERIM UNCONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

For the three months period ended 30th September 2018

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

22.1 The below table shows the carrying amounts and fair values of financial assets and financial liabilities including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include the fair value information of financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Management assessed that the fair values of loans, other receivable and cash & cash equivalent, trade payables, short term borrowing and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. For long term deposit asset and long term liabilities, managements consider that their carrying values approximates fair value.

The fair value of quoted equity securities categorised in level 1 in fair value hierarchy is determined using quotation from the Pakistan Stock Exchange Limited on the reporting date. Unquoted equity securities measured at fair value is derived using discounted cash flow method. The valuation method considers the present value of future cash flows of investee company discounted with risk adjusted discount rate. The significant unobservable input comprises long-term growth rate, long-term return on equity and weighted average cost of capital. Changes in the input would increase or decrease the fair value of investee company.

2. BASIS OF PREPARATION

2.1 Statement of compliance

This condensed interim consolidated financial information has been prepared in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprises of;

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of directives issued under the Companies Act, 2017 have been followed.

This condensed interim consolidated financial information is unaudited and does not include all the

information required for full financial statements and should be read in conjunction with the annual audited consolidated financial statements as at and for the year ended 30 June 2018.

The comparative balance sheet presented in this condensed interim consolidated financial information has been extracted from the annual audited consolidated financial statements of the Group for the year ended 30 June 2018, whereas the comparative condensed interim consolidated statement of profit or loss, condensed interim consolidated statement of other comprehensive income, condensed interim consolidated statement of cash flows and condensed interim consolidated statement of changes in equity are extracted from the unaudited condensed interim consolidated financial information for the period ended 30 September 2017.

This condensed interim consolidated financial information is presented in Pakistan Rupees which is the Group's functional currency and presentation currency.

3. ACCOUNTING POLICIES

The accounting policies and methods of computation adopted by the Group in the preparation of this condensed interim consolidated financial information are the same as those applied in preparation of the preceding annual audit consolidated financial statements of the Group as at and for the year ended 30 June 2018, except for the adoption of IFRS 9 'Financial Instruments'.

IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. In accordance with transitional provision of IFRS 9, the Group has retrospectively reclassified a Financial Asset in 'Fair Value through Other Comprehensive Income' to 'Fair Value through Profit or Loss'. The change of policy has been accounted in accordance with IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors', resulting in restatement of prior periods. The consolidated statement of financial position presents the prior year numbers as stated, due to the said changes, and opening consolidated statement of financial position as at 1 July 2017.

17. REPORTABLE SEGMENTS

- 17.1** The group has four reportable segments: Capital Market Operations, Brokerage, Energy Development and Others. The capital market operations' segment is principally engaged in trading of equity securities and maintaining strategic and trading portfolios. The brokerage segment is principally engaged in brokerage, underwriting, corporate consultancy, research and corporate finance services. The energy development is principally engaged in energy development. Others includes assets of multi commodities entities.
- 17.2** The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies in the annual audited consolidated financial statements for the year ended 30 June 2018. The group evaluates performance on the basis of profit or loss from operations before tax expense not including non-recurring gains and losses and foreign exchange gains and losses. The group accounts for intersegment sales and transfers as if the sales or transfers were to third parties, i.e. at current market price unless disclosed otherwise.
- 17.3** The group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology, professional skills and marketing strategies. Most of the businesses were acquired as individual units, and the management at the time of the acquisition was retained.
- 17.4** The group does not allocate tax expense / tax income or non-recurring gains and losses to reportable segments. In addition, not all reportable segments have material non-cash items other than depreciation, amortisation and remeasurement of equity and debt instruments in profit or loss.
